LIVESTOCK EQUIPMENT

ELITE STATIONARY LOADING CHUTE

The 16' long Elite loading chute will make loading and unloading a much safer job for you and your livestock.

- Heavy-duty frame with 3/16" square tubing & 3/16" thick plate ramp
- 1" square traction crossbars
- Sides are built with 11-gauge square tubing & 12-gauge sheet metal
- Access door at the top of the platform
- Heavy-duty pivot plate on the front to allow for uneven backing
- 2' wide catwalk made with heavy-duty galvanized grip strut material
- OSHA-approved handrail and toe guard on the side and front
- Cattle ramp is 32" inside
- 16' L x 69 1/2" W x 10'6" H
- 3,180 lbs

NEW! PORTABLE LOADING CHUTE

The Elite portable loading chute travels smoothly down the highway or rough trails.

- Sturdy 4" x 6.25 lb channel iron frame
- 12' Ramp constructed from 3/16" plate welded to be strong and quiet
- 1" solid square crossbar cleats welded on 12" centers for better traction
- Comes standard with a galvanized grip strut catwalk on the LH side with optional RH addition
- Uniquely designed crank system makes the transition from towing to loading simple
- Swinging tow hitch can move to the side in the load position
- Ramp sides constructed with a mixture of round and square tubing sheeted up 27" off-ramp
- Equipped with a 3/8" thick truck pivot in front to allow for uneven trailer contact
- Radial tires covered with a heavy-duty fender for safe use and towing
- 4,000 lb torsion axle with EZ-lube hubs
- 16" x 8 bolt wheels
- 2,040 lbs
