

THE CONQUISTADOR

Heavy-Duty Wheel Corral

Product Code #024-CONQ1 #024-CONQ2

LIVESTOCK EQUIPMENT

THE CONQUISTADOR IS LIKE NO OTHER WHEEL CORRAL ON THE MARKET...AND HERE IS WHY

This heavy-duty portable corral can be used to gather, sort, ship, and process cattle where working pens aren't available. Lights, brakes, and dual spindles make The Conquistador safe to drive at highway speeds.

- ☑ Comes standard with lights & brakes on the outside dual tires
- ☑ The wheels on the panels are steel - they won't go flat like rubber tires!
- ☑ Standard model comes with a sort pen extending from the bud box
- ☑ Deluxe model includes additional 3rd sort pen option
- ☑ The hydraulic tires lift so the corral is immediately user-ready without the need to take them on/off.
- ☑ Comes standard with a double-sided hydraulic adjustable alleyway
- ☑ Includes multiple pen configurations without the need to unpin panels
- ☑ The Custom Dual Spindle design allows for more payload capacity and better stability.
