

THE CONQUISTADOR Portable Wheel Corral

“ — WHY THE CONQUISTADOR? — ”

At the end of the day,
my **bottom line increases**
when I can **lessen the**
stress on my herd and
save time, too.

CHAD WALKER,
Walker Ranch, Texas

Design Details That Make A Difference

- ✓ Steel wheels never go flat
- ✓ Dual-spindle design for more payload capacity
- ✓ Rear receiver hitch to tow chutes easily
- ✓ Solar-powered hydraulics are always ready
- ✓ Two sets of palp cages for headgates or chutes
- ✓ Proudly made in America with domestic steel
- ✓ Perfect for ranchers ready to grow their herd

Safety Triple Threat

Traveling with a wheel corral has never been safer - all models come standard with **dual tires** (and a spare!) as well as **lights** and **brakes**. Road reliable at highway speeds.

Time is Money

Every rancher has more chores than hours in the day. Work your herd with less labor. Easy to haul, set up, and take down. **Ready for cattle on site within 30 minutes and able to work 100 pair in one hour.**

Process More Cattle, Comfortably.

Prime & Choice models are able to process up to 195 cow/calf pairs easily. Cattle are always centered through the dual-adjust alleyway with sheeted sides.
